

HYBA Jewels

Hyba Jewels is a jewellery brand started in July 2020, by its key founding members Sushim Kamble and Mandar Lad with 12 plus years of experience in

jewellery production and sales. The word Hyba is derived from Arabic, which means 'Prestige,' denoting our splendid jewellery. At Hyba Jewels, our prime source of inspiration is nature, which we believe is an endless stock of

ideas. This is reflected in our jewellery design backed by the skilled craftsmanship of our artisans having rich experience and aesthetic acumen. Every piece of jewellery, as they say, is unique for the sentiments it carries. Therefore, we take utmost care in crafting our products that will keep these sentiments alive for an eternity.

Hyba Jewels specializes in 925 Sterling silver hand-made jewellery with enchanting designs in every category. Each piece is more breath-taking than the other, offering classic and bold designs to suit every occasion. We offer 3 years of warranty and 70% of lifetime exchange. Along with our exquisite designs, we also make customized jewellery as per our customer's preferences. Our brand strongly upholds the virtue of quality and thereby each product is scrutinized and subjected to standard quality checks. In addition to this, we use premium zirconia from Golay Buchel, known as the one of the world's oldest zirconia manufacturing company and a Swiss-origin brand since 1887. Each piece of GB zirconia is laser marked with "GB Brilliance". For us, our client's safety is the topmost priority, hence we do not use Nickel and chromium in our products. These substances are carcinogenic in nature and are used in low-quality jewellery, leading to skin-related problems. Since we deal in silver jewellery, it is important to note that every piece of jewellery that we craft is tarnish-free. Once the rhodium process is completed, we dip it into an anti-tarnish solution that prevents corrosion

by water, perfume, sweat or any kind of climatic conditions. Moreover, our products are easy on the skin and do not cause any side effects. Along with this,

we believe in giving excellent after-sale service and forging an ever lasting relationship with our clientele. In case of any defects or shortcomings, be certain of immediate repair without any changes or compro-

mise in the design or any aspect of the piece. If we are unable to do so, the entire piece will be duly replaced without any charges.

With diligence and perseverance in jewellery industry, Hyba Jewels is a proud winner of the India 500 Start-Up Award 2021 for Quality excellence. We are also an acclaimed member of the Gem and Jewellery Export Promotion Council which is an apex body of the gems and jewellery industry of India. Our brand is also recognized for having reached the Bollywood industry, with eminent actresses wearing our designs.

We aspire to deliver exceptional hand-crafted sterling silver jewellery exuding luxury, while pushing the limits of conventional designs continuously. Besides this, we strive to bring fore innovation by combining it with able craftsmanship to help our customers select the perfect jewellery for them. Last but not least, our goal is to create a benchmark and leave behind a legacy of bringing joy and bliss to our customers.
